# CHARLES WINCHESTER'S NURSERY

Route 3, Snohomish, Wash.  
Four miles south of Snohomish on the state  
highway to Seattle

The Best Catalog Is The Garden Itself. Drive In, if you please.

## Better Plants For Less Money

In an endeavor to supply you with better plants for less money, I have had to cut overhead costs in getting out this catalog—poorer paper, no pictures, etc.

Liability charges and guarantees are the same as other reliable firms, as I expect repeat orders. It is my policy to please you in all respects.

If In Washington, Include 3% Sales Tax.

Read regulations on postage, and study the abbreviations of dahlias as given in the classification chart, to learn the description of dahlias.

### ABBREVIATIONS

#### CLASSIFICATION—

- Size, A—Large (Exhibition) 8 inches and over.  
B—Medium (Cutflower) 4 to 8 inches.  
Ba—Ball or Show, 3½ inches and over.  
M—Miniature, 4 inches and under.  
M. Ba.—Miniature ball, 2 to 3½ inches.

#### TYPE OF FLOWER—

Ba.—ball; C—Cactus; Coll.—Collarette; F.D.—Formal Decorative; I.D.—Informal Decorative; O.—Orchid Flowering; P.—Peony; Pom.—Pompon; S.C.—Semi-cactus; St. C.—Straight cactus.

#### COLOR—

Au.—Autumn; Bi—Bi-color; Lt. Bl.—Light Blend; O.—Bl.—Other Blend; Dk. Bl.—Dark Blend; L.—Lavender; Or.—Orange; Pk.—Pink; Pr.—Purple; R.—Red; Dk. R.—Dark Red; Lt. R.—Light Red; Var.—Variegated; W.—White; Y.—Yellow.

STEMS—All have good stems and hold the flower up good unless otherwise stated.

# DAHLIAS

Dahlias of quality and distinction. I have a great many listed that are very late introductions and if they had been sent to trial gardens and cataloged by other firms, would be selling for \$5.00, \$10.00 and \$15.00 each, and you can't buy them anywhere else.

Postage is paid on dahlias of \$5.00 or more. On orders of less than \$5.00 add 50c for postage and packing.

READ—Plants or roots received in poor condition will not be replaced unless special delivery or special handling postage was included with payment (add 45 cents for special delivery) or if you do not have special delivery from your post office, add 25 cents for special handling. Special handling is first-class mail. It often results in the purchaser receiving the parcel as much as a week sooner, even on short shipments.

628	<b>Agnus Grant</b> —A. I.D. Bright mauve washed, tinted. W. Choice	\$ .60

### THE DAHLIA BARGAIN COUNTER

If your order amounts to \$5.00 I will throw in an extra variety or root of my own choice worth 50c or more. For a \$10 order. I will throw in 3 free ones. For a \$15 order, I will give 5 free ones. For a \$20 order, I will give 6 free ones, and none of them worth less than 50c each and all will be labeled. These free roots are taken from a collection of varieties of which I haven't enough stock to catalog but all are choice varieties. No 2 alike in any one order.

Here is an offer that should please the most critical. I will send you 12 choice roots or varieties, my selection, labeled for only \$4.00 postpaid. Ordinary commercial value around \$8.00.

If you are disgusted growing the ordinary spinach because it yields so little, and goes to seed so quick, then try this new type of Spinach. It isn't called spinach but judging from the taste and texture, leaf and color it will pass as first-class spinach. It will grow 6 feet high, leaves as big as your two hands and can be picked all summer.

**ORACH**—Liberal packet, with growing instructions, 15c.

If you are disgusted growing hybrid sweet corn because it is not sweet or early enough or Golden Bantam because of it being so late and tall and ears quite small, too, then try my new creation. It does not grow tall, stalks are thick and heavy. The ears are 12 and 14 rows, large and sweet as sugar. It is very early. Pkt. 20c; ½-lb. 45c; 1-lb. 70c postpaid.

**DAHLIA SEED**—Growing dahlias from the seed is very interesting. Very seldom any two will be alike even from one parent, and they will differ in color, type, size and etc. They bloom the first year with root plants and make a large clump of roots to divide the next year. You can name them yourself as you can be sure of having something different. Pkt. mixed varieties .....25c.

**SNAPDRAGON** (Tetra strain)—Largest flowering. Flowers 2½ by 2¼ inches, many attractively ruffled. Every color seen in this glorious flower. My own growing. Fresh seed 25c a pkt.

## PACIFIC STRAIN OF POLYANTHUS PRIMROSES

As the polyanthus group is the most hardy and easiest to grow of all the primrose family, succeeding practically in every climate, I have concentrated my work on improving this particular type. My aim is to develop a wider and clearer color range, taller stems, and larger size of individual flowers and flower heads.

They come in hundreds of different colors, shades, blends and hues—everything I know of except black, and I have black primula primrose—so dark it is called black. My reason of the great range of color and prolific bloom and earliness, they have become a great fad.

I ship strong, well-rooted plants of blooming age in mixed colors only at 6 for \$1.75; 12 for \$3.00; 25 for \$5.50 postpaid.

Blue primroses come higher—4 for \$2.00; 12 for \$5.00; 25 for \$9.00 postpaid. One plant 50c if ordered with other primroses.

I have had outstanding success in landing my plants anywhere in the United States.

I plan to ship as early as possible this year, and according to the locality in which you live.

## HARDY ENGLISH CHRYSANTHEMUMS

Perhaps by this time most of you have tried these hardy English mums and know how early and large they are. One lady wrote me from Oregon, I believe. She was visiting with a friend at Yakima last summer and saw some of my stock, and said they were wonderful and grand and that she wanted a catalog so she could buy some from me this year.

Postage paid on orders of \$3.00 and over; under \$3.00 include 50c for postage and packing.

Price 35c each—12 for \$3.50—24 for \$6.00. Customer's choice — All labeled.

- 68 **Alabaster**—A very early white of large size and substance. Slightly incurved and will grow 5 inches across when disbudded. Sept.
- 67 **August Glory**—Fine golden bronze, inc. Good sized blooms.
- 63 **August Pink**—Lovely shade of clear rich pink. Vigorous grower and nice large blooms.
- 60 **August Red**—Extra double early flowers in a nice shade of red.
- 56 **Avalanche**—Pure white, long pointed petals, 6 inch, bloom.
- 38 **Daffodil**—A glorious yellow, very free flowering.
- 22 **Bronze Freda**—Early and very large. Very popular.
- 46 **Bell Mauve**—Soft Amaranth rose.
- 76 **Constancy**—Large creamy white flower with reflexing form.
- 36 **Cranford Beauty**—A very early large, cream color, inc. Choice.
- 52 **Commando**—Solid bronze bloom of good size. Weather proof flowers.
- 51 **Coppellia**—A startling shade of Indian red that does not fade.
- 32 **Crimson Splendor**—A large deep rich crimson. Choice.
- 26 **Conqueror**—A lovely deep red on strong stiff stems.
- 31 **Delia**—Medium shade of rose pink, tall, very large full reflexed flowers.
- 48 **Elite**—Rose pink with a touch of buttercup pink at center and tips.
- 80 **Fondane**—Low plant, flower 3½ inches, bright pink, roundish, quilled.
- 33 **Gold Standard**—Early dark yellow, huge, does not fade. Choice.
- 55 **Indiana**—A large flower of tomato red.
- 50 **Ivory**—A good solid incurved for disbudding. Ivory white.
- 25 **Lavender Lady**—A large true rich lavender.
- 30 **Leda**—Pastel mauve with lighter shadings. Strong grower.
- 65 **Lancer**—Velvety crimson. Petals broad like a big zinnia.
- 85 **Royal Bronze**—Flower 5 inches, revolute quilled, dark Indian orange.
- 88 **Mrs. S. S. Du Pont**—Flower 3 inches, Egyptian buff. Prolific bloomer.
